# GADGET EXTREME

KEEP THE TOUGH ROAD RIDER ENTERTAINED WHEN HE'S IN THE BOARDROOM.

## Xtreme-1 collection

**XTRME WATCHES FOR RISK TAKERS**

All 3 watches in the Xtreme-1 range come equipped with 42 hours of long lasting power reserve, big hands applied with

A sleek looking gadget

Super Luminova as well as Luminova filled hour markers for easy time-reading and is created specifically for the purpose of deep sea-diving and mountain climbing with water resistance of up to 500, 1,500 or 2,000m, depending on the model.

Both the Sea Hum GMT and the Deep Diver are also equipped with a Helium Escape

Valve (HEV) which allows the wearer to dive to a depth of 1500m and 2000m respectively without the dangers of the crystal popping off due to atmospheric pressures building up inside the watch case. In order to be able to withstand pressures at this depth, Azimuth created the crystal in both watches to be double domed to give it added strength.

The Xtreme-1 collection, which consists of the Sea Hum GMT, the Sea Hum 3TZ (short for 3 Time Zone) and the Deep Diver, is a joint collaboration between Azimuth and Fernando Alberto Lozano Andrade, the famous Mexican explorer. Dubbed as 'The Explorer's Watch' the Xtreme-1 watches are specially created for extreme sports enthusiasts.

Clockwise from top: Xtreme-1 Deep Diver (Front View); Xtreme-1 Sea-Hum 3TZ with stainless steel bracelet and deployant buckle; Xtreme-1 Sea-Hum GMT with rubber strap

Deep Diver comes in a seldom seen and attempted square titanium case. Azimuth created a separate capsule to house the ETA 2826 Big Date movement which is then inserted into the square case housing and held securely by 6 screws.

## Garmin-Asus M10

**SERIOUS ROAD RUNNER GADGET**

Garmin-Asus, a co-branded alliance between Garmin Ltd and ASUSTek Computer Inc announced the Garmin-Asus M10, a full-touch, all-in-one smart phone powered by Tele Atlas maps solutions and Windows Mobile 6.5.3, from Microsoft Corp. The M10 keeps professionals connected with

business and personal contacts, email, calendar and IM, in addition to featuring preloaded mobile navigation and maps from Garmin and Tele Atlas.

The M10 comes with advanced navigation features equivalent to a high-end Garmin 1460 Portable navigation device (PND) to deliver powerful, highly accurate turn-by-turn directions. The M10 also comes with advanced display features such as 2D City Maps, test to speech, lane guidance and

junction view information.

The M10 has a sleek design with a 3.5 inch WVGA display and a finger-friendly user interface. An intuitive 3D Task Manager also allows users to switch easily between running applications.

The phone is also equipped with a high performance 5 mega-pixel camera that automatically geo-tags photos. The Garmin-Asus M10 is available at M1 and Starhub and all authorised resellers.
