A man with dark hair, wearing a dark suit jacket over a purple V-neck sweater and a white collared shirt, stands on a white rectangular pedestal. He is looking down and slightly to his left, with his hands near the buttons of his jacket. He is wearing dark sneakers with white soles. The background is a plain, light-colored wall.

Style, fashion, pizzazz. They say the clothes make the man and at Mandarin Gallery, he chooses what makes him. Here, on the famous Orchard Road, he will find an exquisite collection of the finest labels, housed under one unique and intimate destination.

It is a different kind of experience at Mandarin Gallery, where the casual, elegant and exquisite come together to give the discerning male of today a full spectrum of fashion choices. Injecting the steroids of powerful style into his masculinity.

To cater to this new man, renowned brands have congregated at the Mandarin Gallery to host their flagship stores. This means that he will find groundbreaking fashion trends at Mandarin Gallery that fashion connoisseurs will surely applaud.

And it is the journey of style to behold. For a start, Mandarin Gallery invites awe with its façade, where top brands jostle for eyeballs from the sidewalk. For the man who knows exactly he wants, it is an announcement of his arrival into exclusivity. And it is a tease to the him who appreciates the finer things in life, to enter and explore the artistry within the core of his being. Whether he loves the

second opinion of his woman or prefers to shop alone, he is about to be mesmerised by the fashion of a very distinctive world.

The accessories

It's the subtleties that make the biggest impressions. Accessorising is an art and here is where you will become an artist. From cufflinks, to ties, to wallets, to belts and shoes, the first step to fashion fame begins here at Mandarin Gallery.

The important man always needs to walk into any conference room and exert his presence. He will not be yet another occupant of the many chairs at the round table. Rather he will be the obvious leader of the pack. Distinguished. Refined. Articulate. And incredibly suave. Commanding respect with the right body language and impeccable social etiquette. Distracting any adversaries with his enviable taste for high fashion fabrics and colours.

Indeed will eyes will follow him, Fans and foes alike. From his tie pin to his cuff links to the finely crafted pen that he whips up to seal that winning deal. The poise of a confident man is a superb balance of all the right male accessories from Mandarin Gallery. And with

Stylish Suave

Everything you want, to craft your perfect look resides at Mandarin Gallery. From contemporary to classic, a vast collection of the finest names in fashion awaits here.

the shaking of hands at the conclusion, all will never forget that inner strength from that one well dressed male at the helm.

The shoes

He will then journey on in his quest for footwear – the cushion on his sole and the fashion of his feet. From leather, to canvas, suede and vinyl, here at Mandarin Gallery, he will literally walk out onto Orchard Road, in the shoes of luxury.

These days, formality is a by-word and formal shoes are versatile, suiting any occasion. With jeans, bermudas, slacks, shorts, anything goes with loafers. Here at Mandarin Gallery, bound by exquisite hide and luxurious suede, are collections of the finest shoemakers.

From Italian leather, to German designs and American chic, a man is spoilt for choice if he wants that mature, suave look that seems all the rage these days.

For the younger man, he wants a little bit of excitement, a spring in his step. If a casual pair of shoes is what he desires, this is what he gets. At Mandarin Gallery, his emotion is that of a little child when he sees that perfect pair of sneakers and that imperfect mix of exotic expressions. Wowed by candy colours and fantastical designs, he is a part of the artistry that the designer conjures for his pleasure. Here, some of the top names and trendsetters come together in a psychedelic coalescence of brilliance to create that beautiful Frankenstein that electrifies the senses and tickles the imagination.

The watch

Which man can resist a timeless timepiece? Almost all men today are guilty of flashing a little wrist now and then, to show off that bling. With a collection of the finest, all are an expression of artistry in design and functionality.

Our Mr. Suave understands that little flick of the forearm is more than a motion. It is a declaration of his appreciation of many things. Luxury, confidence, timeliness, timelessness; all within his leather bound, metal wrapped wrist. To him, only the best matters and while time waits for no man, he patiently awaits that perfect movement, ticking ever so exquisitely to his pleasure.
